**Immediate Outcomes (0-5) (IMO)**

IMO-01: Improved knowledge of Indigenous people’s health care issues and barriers, health and wellness goals and priorities
IMO-02: Improved quality of health care and training for staff on culturally competent care
IMO-03: Improved participation in health and wellness services and supports, including culture and language activities
IMO-04: Improved access to traditional medicines and healthy foods
IMO-05: Improved access to health and mental wellness services and supports

**Intermediate Outcomes (5-15) (INO)**

INO-01: Improvement in prevention, diagnosis, treatment and support
INO-02: Strengthened Indigenous people’s identity, culture and well-being
INO-03: Improved participation in health and wellness services and supports, including culture and language activities
INO-04: Improved access to traditional medicines and healthy foods
INO-05: Improved access to health and mental wellness services and supports

**Long Term Outcomes (15-25) (LTO)**

LTO-01: Health outcomes of Indigenous people are at least equal to those of non-Indigenous people
- Chronic disease and infections
- Self-reported health
- Health condition/status

**Assumptions:**
- Indigenous Government initiatives will be culturally relevant and reflect community needs.
- Initiatives will be targeted at outcomes; program theories will be linked to intermediate and long-term outcomes.
- Activities/outputs should be flexible to reflect IG-specific initiatives.
- Mental wellness and healthy food choices are determinant of overall health.

**External influences:**
- Health gaps may be influenced by other areas of social well-being (e.g., infrastructure, housing); it may be difficult to attribute successes and challenges in outcomes of initiatives.
- Stability of national economic conditions will influence outcomes.

**Risks:**
- Timely release and coordination of fiscal policy processes including securing funding, and agreeing on performance measurement objectives.
- Use of logic model as an evaluative tool will require supporting data.
- Long-term capacity, momentum, and support for fiscal policy will be required for long-term outcomes.
