documents the risks of the Sector against its objectives. Risk assessment should include the impact and likelihood of risks identified with consideration of risk mitigation measures in place. Furthermore risk management should be integrated into operational plans and key decision making processes, such as table review and HR planning etc.	<p>through Table Review</p> <p>In the renovated FAPP database, risk assessment and mitigation will be incorporated systematically into the table by table planning process.</p> <p>FAPP will also enhance our capacity to monitor and assess risks in respect of policy gaps and requirements.</p>	<p>Ongoing on Annual basis(linked to Corporate Business Plan)</p> <p>March 31, 2014</p>	<p>well as the mitigation strategies for managing those risks. The Table Review process that assesses all sector negotiating tables also contributes to managing risks on a table by table basis.</p> <p><b>The Results Based Information System, when completed, will incorporate risk assessment and mitigation systematically into the table by table planning process. It will also enhance our capacity to monitor and assess risks in respect of policy gaps and requirements.</b></p> <p><b>AES: Recommend to close. Close.</b></p>
