

# ENVIRONMENTAL PUBLIC HEALTH REPORTING REQUIREMENTS FOR ENVIRONMENTAL PUBLIC HEALTH OFFICERS

**DCI Number/Fiscal Year:** HC-P036 (2023-2024)

**NOTE:** This document is a representation of the reporting requirements for DCI HC-P036. It is not a reporting template or a data collection tool. Where applicable, reporting templates, guides and data collection tools that will assist you to complete your reporting requirements will be provided by your Regional Office. Please contact your [ISC-FNIHB Regional Office](#) if you have not received a copy of the documents, if you have questions, or require assistance.

## Program Reporting Requirements:

Please consult the program plan or community health plan for details on the ongoing reporting requirements of Environmental Public Health Officer (EPHO) and Community-Based Water Monitors (CBWM) related to drinking water quality and monitoring, and public health issues (such as forest fires, flooding, food or waterborne illness etc.).

### Facility Deficiencies

For the Facility Types identified (Permanent Food Facilities, Housing, Community Care and Health), please provide the number of assessments made as well as the number of those assessments which were unsatisfactory. The "deficiency" column should list all of the building/facility characteristics which are assessed by EPHOs. If the list of deficiencies provided below do not match your list, please input your own. If your data system is EHIS-based, you may provide a 5000 report for each of the requested facility types.
