	related to their duties. • To ensure that the security awareness program is active in their respective region.		<ul> <li>HRWSMC on Departmental Security Plan.</li> <li>This will be assessed as part of the 3 year strategy of the Departmental Security Plan.</li> <li>During the week of March 7 to 11, 2011, the annual training session for RSO and SSC was held in the NCR region. A total of 25 participants attended from across the Department.</li> <li>The DSO is in contact with the RSOs to provide statistical data in regards to inspections, awarenes sessions and incident.</li> <li><b>AES:</b> Fully implemented. The recommendation has been closed.</li> </ul>	
4. AANDC should consider appointing Sector Security Officers in all sectors to support implementation of the security program, similar to the Regional Security Officer role. The responsibilities attached to this role and associated level of effort should be presented to AANDC Senior Management when the departmental security policy is next updated.	<ul> <li>Define role and responsibilities for Sector Security Officer as per Recommendation # 1, and determine the associated level of effort the position will require.</li> <li>DSO to seek approval from Senior Management for the introduction of the Sector Security Officer role.</li> </ul>	2010-DEC 2011-MAR	Status: Update/Rationale: As of 31/03/2011: The roles and responsibilities for Sector Security Coordinators (SSC) were defined and presented to all sector representatives on January 19, 2011. Comments were received and another session was held on February 9, 2011 to review amendments. Following request from DSO to seek support from Senior Management (presented in 12 sectors) for the introduction of the Sector Security coordinator role, several SSCs have been appointed.

8. The DSO should increase focus on monitoring the effectiveness of security in contracting processes and reduce its direct involvement in the review of Security Requirements Checklists and contract clauses. To accomplish this, an organizational and functional review of the security in contracting function is required to ensure that sufficiently trained and competent contracting officers review and approve security requirements and security clauses. Furthermore, a comprehensive and effective security in contracting compliance monitoring and reporting program is required to ensure compliance is achieved and maintained across the department.	<ul> <li>Revise proce develue the correview incluss clause</li> <li>To de modu contra admir mana SRCL</li> <li>To de modu Contra c</li></ul>	t with the CFO to: e existing dures and to op new ones for ompletion and v of SRCLs and ion of security es in contracts. velop training les for RCMs and acting iistrators for the gement of the process. velop training les for Security rs responsible for iance of contract ty requirements.	2010-SEP 2011-MAR	Status: Request to be closed (Completed) Update/Rationale: As of 30/09/2011: Completed as of March 2011 AES: Fully implemented.
